there are a total of 21 levels and five bosses. the levels progress in a very similar manner, with the first level is an open area. then the next three levels are enclosed spaces and the final two levels are an open space as well. there are only nine levels that are enclosed spaces that you have to go through and two of them are optional. in between each enclosed space, you will encounter a boss. these bosses are based on the four game styles; humans, devils, dark and angels. each boss represents a different style of gameplay and you must defeat it in order to move on. each style requires a different style of play. first of all, to defeat lucifer, you need to kill the seven demons around him. after that, you need to defeat lucifer by using the devil trigger. then you need to perform three vs. summon. there are three vs in the game; the one that is unlocked by getting s rank on devil hunter mode, the one that is unlocked by getting s rank on mission mode and the one that is unlocked by getting s rank on inferno mode. the fourth and last thing that you need to do is to defeat urizen in his duel. after you beat urizen, he will give you a duel again. he will choose the demon stance that you will use in the next duel. you can choose one of the three stances; demon, devil hunter or heavenly hunter. after you defeat him with your chosen stance, you are given a choice to go through either the empty portal or the portal with the green magic circle. go through the empty portal first, otherwise you will not get your achievement. the player will earn a reward of each devil trigger bar on the right. the bar can only be refilled by defeating enemies, even if they are held by a devil trigger user. all of the devil triggers have unique requirements for refilling bars. on the bottom of the screen, there are three bars which signify the current amount of devil trigger refills. if all of the bars are full, the next bar can be refilled by defeating enemies. the devil trigger refills are achieved by defeating enemies which are held by devil trigger users, not by defeating enemies which are not. in order to get as many refills as possible, it is recommended to fight every enemy that is held by a devil trigger user. 5ec8ef588b
