[Game Introduction] In the RPG genre of the Elden Ring, combat is a vital element of the game, and while we put great efforts into the battle system, we also took into consideration the visual expressions of actions and movements of the characters, providing a game that is both fun and exciting. We have restructured the Battle System, using a new three dimensional configuration of the characters, creating numerous possibilities for battle. There are various attack methods and items, and many of the battles you will fight will have a certain different perspective than the battles you have experienced before. In addition to the customization of your character, which has been possible in various titles in recent times, we now have made the equipment and skills of the Tarnished and Rainbow characters appear a bit different. We realized that the world of the Elden Ring has a beautiful and dark atmosphere. In order to create a world that has a true atmosphere, various elements such as dirt, rain, the sound of insects, mountains, and lakes were created. By developing these various elements, we were able to achieve an atmosphere where the clash between the two orders, the light and dark, can be felt. In the light-hearted story you have been playing in the RPG genre, an unexpected and mysterious event occurs. The two camps begin a fierce battle, causing the two warriors to clash once again. The fate of the two camps' mutual enemy, who have gone far away, will be decided by a battle that will take place on a far-off world... To make those who have always dreamed of a role-playing game with a new atmosphere welcome a new game that is the next chapter of the Elden Ring in a game with a renewed experience. What if the kingdom you wanted to do something about something great were fighting against the former kingdom? What if the relationship between the two was not simply peace or war? What if they did not surrender, but embraced each other, and then something unexpected happened? [Enjoy the Story of the Elder Lore] As the story progresses, please enjoy the story of the Elder Lore, the story of the world. The Link System allows you bff6bb2d33
