How to Get Started

The following steps will help you get started with the BlackBerry Desktop Software 6.0 software on your Windows or Mac desktop computer:

On the Windows desktop, from the start menu, choose My Computer. The My Computer window opens and displays your local computer. On the Mac desktop, from the Applications folder, choose Finder. The Finder window opens and displays your Mac desktop.

Note If your Mac desktop and Windows desktop are using different file systems, you will see those file systems listed instead of My Computer or My Computer (Mac) or Computer (Windows). Right-click the desktop icon of BlackBerry Desktop Software 6.0 and choose Extract. On the next screen, choose the option to extract the BlackBerry Desktop Software 6.0 folder. Click Open and follow the onscreen instructions to complete the installation process. Open BlackBerry Desktop Software 6.0 from the Start menu. Click the BlackBerry App World icon. Click Download and Install Applications. If your BlackBerry smartphone supports BlackBerry App World, you will be able to choose from a list of applications you can

download from the BlackBerry App World application store. If you select the type of application you want to download from App World, you will be prompted to download the app and install it. If you're connected to the Internet and want to use the most up-to
