
Hawx 2 Unlock All Planes Save Pc

thankfully there is a plethora of planes to unlock. you start off with the low tier cessna, griffin scout, airbus a320, and the high tier hawker typhoon, f/a-18 hornet and f-16 falcon. all the planes are extremely detailed and looks great even in the lower resolutions. the levels in hawx 2 are like something you find in an arcade flight simulator. the levels have a lot of narrow roads and hills, keep going down for long minutes, and then suddenly you spot a gun post or a helicopter and things change up for a bit. if you decide to get this game, keep in mind that you will spend the next 18 hours getting the planes flying and spamming the menus. you will spend hours trying to find the right keys, controls, and activities, all in hopes of unlocking more planes. my biggest gripe with the game is that the game is not very linear. if you have played the previous game in the hawx series, then you will have some idea of what to expect in hawx 2. for those who don't, i really think this is a good game. the only thing i can't stand, is that there isn't any sort of cover system, which makes it harder to aim your weapons. as for the gameplay, hawx 2 is a lot of fun and i would recommend it to any tom clancy fans, as it has a lot of good features and is a very enjoyable game. it is very rare that i enjoy a tom clancy game, as i am a lot of fun of the spy genre and not so much of the military one, however hawx 2 is worth checking out. tom clancy's hawx 2 is a game that will appeal to any fan of the game series. however, with the way it is set up, you will be expecting a lot more. if you like tom clancy's games you will really enjoy this game, but you will also expect a lot more from it. however, if you can get past that it is a good game, although not the best in the hawx series.
