Now the question is the plan of this Super Alliance of warring militants of the Niger Delta and their allies, the Islamic State of Iran. This plan presents Nigerians with several key aspects that require paying close attention to, before we take the step of extending solidarity to these militant groups. In order to arrive at this Super Alliance of warring, the Islamic State of Iran with their allies, the militants of the Niger Delta, the Houthis in Yemen, and the so called Peoples' Revolutionary Guards (Qods) of Iran, there is a need to understand the rationale behind it. The first and most important point to bear in mind is that the plan is all part of the wider plot of Iran to come out of the shadows of the world's sole Islamic superpower, and elevate itself into global leader with the express aim of eventually conquering and subjugating the whole world under its rule, and this plan will directly go against the very reason why it was founded by the Ayatollah Khomeini almost 40 years ago – for the establishment of an Islamic state. Iran was originally founded by Marxists, and the objective of the Ayatollah in founding the Islamic Republic was to use the Shura Council to erase the very concept of class struggle in Iran, and reduce all citizens to the status of a mujahid (Muslim warrior for Islam), a dar al-fidjallah (the world's paradise), and a dar al-shahaddah (the world's witness). But if this is the criteria you meant to use in defining whether or not a person is an Ahmadi Muslim, then my name will be one of those in the list you just made. Do you see any problem with that? Because I have closely followed events in Pakistan from day one of my life, some 15 years ago. If this criteria was used to define who is a Muslim according to the Shura Council of Pakistan, then Dawat-e-Islami would not have been allowed to have international status, much less any international recognition, including from the United Nations. Let me ask you this, if a South African, an American, an Australian or a German wants to donate money to Dawat-e-Islami. How can they do that? Because what you just said, that we have to judge a person's allegiance to Islam solely based on his/her DNA makes Dawat-e-Islami a sinful, outlaw, illegal, terrorist organization. You cannot have your cake and eat it. You cannot take an international organization and shut it down because it has a certain attribute that doesn't necessarily make it an international terrorist organization! The Shura Council of Pakistan is the only recognized Islamic party in the world.
