
Lightroom 5 Amtlib.dll

Download

Yes, in my experience, they work very well. The amtlib.dll hack is almost universal across all Adobe CC products and still works (I'm really wondering. Why?) ... and it also works for at least all applications based on this DLL, from Acrobat to Premiere and after effects. (I'm not trying to convince anyone that this is the best method in the world as it doesn't always work best for me, but it works. It also works for me. If you're willing to try it won't take you long.)
