
Microsoft Sql Server 2008 R2 Serial Key

Hey, how can I get a SQL Server 2008 R2 product key from an installed instance? ... "SOFTWARE\\Microsoft\\Microsoft SQL Server\\100\\Tools\\Setup" ... I am using SQL Server 2008 and I am unable to find the product key ... My installation is on a Windows 2008 R2 server with the following keys: ProductID - 0x00000004 SoftwareVersion - 0x01080000 BuildNumber - 0x00171889 I am currently using SQL Server 2005 Enterprise Edition. I want to use 2008 R2 for new developments but when I install SQL Server 2008 it doesn't show the key. Does anyone know how to get a product key? I would be very grateful for any advice.

Microsoft Sql Server 2008 R2 Serial Key

Or you can view the registry at this location:

HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Microsoft SQL Server\100\Tools\Setup in ProductCode. In this field, you can see the ProductCode, ProductName, and ProductVersion of the component. How can I get the ProductVersion for each installed database or for all databases so that I can set it for everyone and it will work for all databases. I am using Windows Server 2012 R2 64 bit You can view versions of SQL Server as it is updated. This information is available at
