Windows Live - is a
Firefox extension that
allows you to monitor
your internet usage
(craigslist, myspace,
youtube) while browsing
the web. The data is
collected from all the
major web services
(facebook, youtube,
myspace, craigslist, wik

Description: We love Firefox, but maybe you don't love it all the time (or never use it). This is a Firefox screensaver to advertise that it's still all there, and none of it's gone. See all the wacky features that Firefox uses every day, including a rubber duck swan, Tweezer, Urban Terror

and of course a snow cone. Additionally, you'll notice the styles used in Firefox are there, (the greyscale buttons, the theme colours, the new checkboxes/menus). If you are using the settings above, this screensaver uses the same exact settings. The fields in the settings can be accessed from the screensaver preferences

window. This screen saver has been selected as a Firefox screensaver of the month by Firefox users. Please remember to rate this screensaver in the screensaver selection screen! This Firefox screensaver was originally created by Adam W. Kostin. Please [click here](#) to view the Twitter conversation between Adam and the

author. Requirements:
License: Mozilla Public
License (MPL 2.0)
