m's Halftone is an After Effects plugin that handles halftone processing. It's very easy to use: just add an effect to a layer without the need for a layer.Stability issues when using After Effects 2022.1.1 MOGRT with . Issue: On Mac, aerender automation crashes every time aerender fires. This causes problems. I'm not sure what exactly the problem is, even though I searched for the problem. As a result, aerender doesn't work for me and doesn't use the mogrt feature, which I understand was added in After Effects 2022.1.1 MOGRT. Solution: try running mogrt with a new name. That being said, make sure you are using After Effects 2022.1.1 MOGRT and not 2025. This issue can only be resolved in After Effects 2021.1.
