The SCULPTURE AT PLAY The sculpture at play represents the fundamental principle of art as the reflection of reality, free play, unbridled creativity and pure spirit. For the artist Aleksei Butkevych the artist, sculpture means not only the creation of physical objects, but the creation of new forms and solutions. The sculpture as his unique area is the instrument of expression for the life, work and condition of artist and material. The sculpture is a means of the artistic expression through the open and open-ended. The idea of beauty is for the artist a philosophical moment, moral insight, the aesthetic experience that serves the interior of art as an artist. For him it is not a matter of striving for beauty but only trying to find and create what is beautiful. Aleksei Butkevych's great passion is the search for new aesthetics, new artistic formulas of expression. Such concepts as unity in colors, weight, volume, rhythm, form and space play a very important role in his work. t h e c l o s e s t t o 0 . 2 i n 5 , 0 . 3 , q ? 0 . 3 L e t f = 1 + - 2 .
