The Shaukeens (The Romantics) is more than just a cute story about a trio of sexagenarians who refuse to act their age. With its unique story structure and top-notch performances, its one of the best Bollywood comedies in recent memory. The Shaukeens, which was a critical success when it was screened late last year, is a remake of the 1982 Hindi-language film Basu Chatterjee's Asoka, which was loosely based on the English-language film with the same title. Akshay appears in the film as a sensational and often disturbing TV evangelist. His brother-in-law Nayeem, is an English-speaking director from Britain. But any similarities the film has with the original are likely to be coincidental, since Asoka was never a Bollywood hit. It was also directed by Basu Chatterjee, whose name and acting style is a major difference between the two versions. Because of this, the characters of Akshay and his wives, Sujata and Shraddha Kapoor, come across as caricatures, and the characters of women in Nayeem's film - well, they're barely contained caricatures. It is up to audience to root for them, even if The Shaukeens never explains them. If this weren't made fun of, it wouldn't be so good! The Shaukeens is an excellent Zindagi Na Milegi Dobara copy. How many Zindagi copies, eh. The problem is, it's not a copy, but a shameless steal. Not all filmmakers care about making original movies that stand apart from the rest. Some just build on the strong points of whatever movie they do well. The Shaukeens hd 720p What is the artistic value in pasting a picture of a star on the cover and into the story? Who will buy it? Besides, it's a bit like plagiarizing. For example, plagiarism happens when someone lifts a quote from someone else and pastes it into an academic work, or a new web site. If someone pastes a picture of a star on a poster and then calls it Zindagi, only a marketing person would buy that - and that's a pretty bad guy.
