The 25th Anniversary of the Transformers series isn't the only reason why we're celebrating the Marvel Comics character in this year's LEGO Marvel Superheroes! Now, you can experience all of the emotional highs and lows of the Silverbolt as he makes his way from the heart of the Equestrian Sector to Earth in the brand-new LEGO® Ideas The LEGO Movie™ Bumblebee: Into the Spider-Verse Modular Building (36810). This creative new model contains almost 8,000 pieces and features the speedy Autobot-Ally as he transforms into a sleek and powerful Spider-Man-inspired truck! What? They've transformed the Bee into a truck? Well, I don't know why, but I'm pretty sure I'm supposed to go work for Optimus Prime. But that's another story entirely. In recent years, it has become increasingly common for Transformer robots to be converted into cars or other vehicles. Bumblebee's conversion into a straight truck, however, seems to be a rather new development, as he first appeared in the LEGO sets released in 2015. The new LEGO model has been based on the truck from The LEGO Movie: The Builders' Gift set (71028), but with a different build and a few extra features. LEGO Bumblebee Into The Spider-Verse Modular Building (2018) The design of the new model includes a convertible roof, a translucent fire wall, a working Bumblebee motorcycle, a hidden cabin and several opening doors. A clear front windscreen adds a little extra style to the eyes, which are placed on the truck's bonnet. The front wheels can be removed.
