Whether you are looking for a specific document, the serial number of a device or the name of a music file, you can use this application to locate your file. This software is the best among its kind as it enables you to conduct a deep search in a matter of seconds, no matter how many files are in your directory. Features:

- An easy-to-use software tool that will help you locate files.
- Simple but powerful search.
- Comprehensive help information.
- Ability to save your results to a file.
- Ability to export them.
- Multi-document search option.
- Multiple file type search.
- Ability to find multiple files in a single file by using wildcard.
- Recursive scanning of sub-folders.

Support for Windows XP, Windows Vista and Windows 7. BEDA_Search Lite Full Review- Ringtones and E-Mail ID search application supports all categories of documents. BEDA_Search Lite Full Review BEDA_Search Lite Full Review- BEDA_Search Lite is an excellent application to search any type of documents (eg. emails, text documents, PDF files etc). This is a simple but user friendly software to search the e-mails or text documents. It can also search the password protected PDF files. The installation is easy as there are not many extra files to download and install. The software will search from the archive folder to the Sub-folders and all the sub-folders. All the search will be done locally and it won't need Internet. BEDA_Search Lite Full Review- This product doesn't only support the conventional search functions but it also supports the advanced features such as the auto search and batch search functions. If you are looking for the specific file in your mail account, BEDA_Search Lite Full Review will search that file in seconds. You can sort your search results using the various sorting options. You can sort by name, description, size, creation date etc. If you are using a Gmail account, you will get an option to see the filtered e-mails as well. You can turn on/off the notification in order to get the results. You can also download the results from the cloud. The software will read the contents of the file and also search the attachments. All
