What's New In?

WinZoom - is a powerful tool for increasing the size of images on your Windows desktop. So many people have problems with the system settings for desktop icons or text that can not be seen on their monitor, by an on screen keyboard, or simply can not be seen from far away. By using WinZoom, you will not have to deal with

those problems. It can increase the size of everything on your screen - even with the size of the icons is not possible to increase or decrease the size of the icons. It can magnify images from your collection of digital photos, online videos or from other digital sources. You can select the zoom factor you want to use, and there are many customized options that make WinZoom unique. You can do everything, that you can do with the good old magnifying glass, but you can do it with a mouse and with your regular mouse pointer instead of having to go up to the good old magnifying glass all the time. WinZoom can be set to show you a magnified view of your desktop. WinZoom is a great utility to solve that annoying problem that seems to arise more and more with your Windows computer. WinZoom includes a full featured zoom control, many mouse controls, customizable settings, a very useful image viewer and a full integrated browser. Main features: * Can increase the size of images on your screen (also allows you to

decrease the size) * Supports a magnification factor up to 36x * Image viewer with over 100 view modes, page by page scrolling, adjustable brightness, contrast and zoom, image rotation * Full featured image browser with zoom and display features for HTTP, FTP, Mailto, Icecast, LiveStream and more * Customizable mouse controls, keyboard shortcuts, and more * Browser for downloading images from the Internet with support for many different protocols including Internet Explorer, Mozilla, Netscape and many more * Internet Explorer, Mozilla, Netscape, Camino, Opera and several others web browsers * View images with different file formats including JPG, JPEG, GIF, PNG, BMP, AVI and more. * Image viewer supports up to 300 images per directory * Support for all Windows OS versions starting with Windows 95, Windows 98, Windows Me, Windows XP, Windows 2000 and Windows Vista * System requirements: * Windows 2000 or later with Internet Explorer, Mozilla, Netscape, Camino, Opera, and others

web browsers * Internet connection for downloading images from the Internet * Sound card with supported DirectSound for playing sounds * 128Mb or more of RAM for WinZoom to work properly * The executable file is about 110kb. The installer includes (along with the program) more than 1GB of images for viewing and as much as 40MB of

System Requirements:

Minimum: OS: Windows 7 Windows 7
Processor: Intel Core i5-4690 3.2Ghz or AMD FX-6100 3.0Ghz Intel Core i5-4690 3.2Ghz or AMD FX-6100 3.0Ghz RAM: 8GB 8GB HDD: 15GB 15GB Graphics: NVIDIA GTX 660 2GB (or AMD Radeon HD 7870 2GB) NVIDIA GTX 660 2GB (or AMD Radeon HD 7870 2GB)
DirectX: Version 11
