## Girl Life Game Mods ((EXCLUSIVE))

The Black Death: CDC Investigators Hey guys, this video is on my channel, The Black Death. Let's talk about the disease. The Black Death, which is also known as Bubonic Plague, has been around for a very long time. Since the 13th century, it has killed many people. It basically enters your body through your nose or mouth and spreads throughout your system reducing your body's resistance. The bad news is that it will destroy your body through ulcers, gangrene, diarrhea and even death. There is also another form called the pneumonic plague which is a lot more deadly. It enters your body through your lungs and gets into your bloodstream where it leads to heart failure and death. The other bad thing is that people who have survived its first stage or symptoms are more likely to survive its second stage. It was the worst disease that the whole world has ever seen. Locations: 1:57 What Makes a Girl Play a Game? What Makes a Girl Play a Game? What Makes a Girl Play a Game? The video that I had uploaded on my YouTube channel, before finding out about the new copyright law, called "Misconceptions", which included a girl playing video games. Now, I have replaced this video with this clip of me playing on my PC, an actual version of Playerunknown's Battlegrounds, running behind screen capture software called "camtasia", and gathered some tips for you guys, for you who are thinking about playing this game. It includes a list of tips that you should watch out for, as well as things that make me a better. If you enjoy watching this video, please give this video a like and share it with your friends.
