This pre-applying of the transfer media can include applying one or more heat-sensitive inks to the media. For instance, the transfer media can include a carrier sheet, a liner sheet, and a heat-sensitive ink layer that may be laminated between a carrier and a liner. The heat-sensitive ink layer may be a layer of heat-transferable liquid or sublimation ink, such as a heat-sensitive dye or heat-sensitive pigment. The transfer media can be laminated in a continuous strip or web, and then cut into discrete transfer media of various lengths, typically
