#### What's New In?

The visual editor, which is more Full Review: TechSecure by DEDICATED Labs TechSecure by DEDICATED Labs is a free utility designed to protect your computer against potentially malicious software. TechSecure's antivirus engine is similar to other AV products in the marketplace, such as malwarebytes, avast!, 360 antivirus, McAfee, and Avira, and comes with a free 30-day trial. The product includes the ability to scan and remove potentially malicious programs that you may have mistakenly downloaded or installed. TechSecure can also allow you to schedule a scan or run manually. The scanner also allows you to determine what parts of your computer are infected with potentially malicious programs. You can also set the program to run at scheduled intervals or manually. The software is easy to install and set up, and the user interface is easily navigable and easy to read. TechSecure is a well-designed and easy-to-use product that offers many options and functionality. TechSecure can be accessed using an Internet browser, and it installs to the system's default Windows directory, so it is easy to locate in your system. The program will function properly on all versions of Windows. TechSecure is a free antivirus software that protects your computer from potentially malicious programs. Features: Advanced tech such as reputation analysis and Web site ranking assist in detecting and removing malware. TechSecure does a good job of finding malware that is not showing up in other known anti-malware scanners. TechSecure removes malware that is normally missed by other scanners. A high-end anti-

---

spyware engine blocks spyware such as Trojan:Win32/Zduplig (W32.Zduplig) and a keylogger. TechSecure can act as a system rescue disc, with a self-healing program that detects and removes malware. The Security Center includes a Control Center that displays all actions taken by the antivirus engine, including actions by the Spyware/Adware Control Center. TechSecure includes a calendar, a sound effects file for system events, help files and an instruction file, and other important files. TechSecure has many advanced security features, including Internet Security, Privacy and a risk alert system. When you start the program, you have the option of selecting an option to remove malware or to schedule a scan of your computer. TechSecure includes a demo version that allows you to scan your computer and see a report on the potential malware. You can also use this demo version to scan and remove detected malware. TechSecure includes a system restore tool that allows you to restore your computer to an earlier date. TechSecure has a Help Center that offers help and more information about the product. TechSecure can detect adware, spyware, and potentially
