If you choose to extract the files, the game should appear in your 'theKlub17' folder. It's called that because the first six characters (start-up code) of a program's name determine the type of program it is. EXE stands for "executable". Programs that get installed on your system as Microsoft Windows Setup.EXE files can be categorized as program "Installers". This program removes all files and directories located at C:/TheKlub17 in the manner that they are deleted on other operating systems (i.e. delete the complete directory, not just the contents of it). There is a backup folder created in case of failure.... Backing up to your PC at all times is advised, as data loss can result from this type of... Linux distributions like Ubuntu often contain programs that provide automatic backup solutions. However, often you will need to go and configure the backup program. We will look at two well-known backup solutions, Simple Backup and Nextcloud. In both cases the program creates a folder named "backup" at your home directory.... The only other known way of back-up in the Klub17 folder, is to use a program called 'DFWizard' (here)...
